

My Dear Friends

The Moroccan League for the Fight against Diabetes presented its work and the joint work with the "Moroccan Obesity Task Force", the Moroccan Society for Nutrition, Health and the Environment and the Designated Regional Center for Nutrition AFRA / IAEA (Ibn Tofail University - CNESTEN) for the nomination of the "2022 United Nations Inter-Agency Task Force and the WHO Special Program on Primary Health Care Award".

We have just received the good news. After deliberation the Moroccan League for the Fight against Diabetes was selected to receive the award.

This award recognizes the key role in raising awareness and building capacity around the prevention and control of diabetes, which contributed to the adoption of a tax on sugary drinks in Morocco.

Congratulations to the "Moroccan League for the Fight against Diabetes" to the "Moroccan Obesity Task Force" to the "Moroccan Society of Nutrition, Health and Environment" and the Designated Regional Nutrition Center AFRA/IAEA (Ibn Tofail University – CNESTEN) and to all the people who, from far or near, have contributed to this awareness-raising work.
