

Press release

The Moroccan Diabetes Fighting League, a member of the International Diabetes Federation, and **the Ibn Tofail University of Kenitra** are celebrating **the World Diabetes Day on November 9 and 10, 2018 at Ibn Tofail University in Kenitra.**

This celebration takes place under the aegis of the Ministry of Health, the Ministry of National Education, Professional Training, Higher Education and Scientific Research, the National Council of the National Order of Physicians.

Under the theme: **"The Family and Diabetes"**, this event is organized in collaboration with **several institutions and scientific societies and associations**: Provincial Medical Delegation of Kenitra, International Diabetes Federation MENA Region, WHO, CNOPS, ANAM, Moroccan Society of Endocrinology Diabetology and Nutrition, Moroccan Society of Nutrition, Health and Environment, Regional Center Designated Nutrition AFRA / IAEA (University Ibn Tofail - CNESTEN) and Association "All with the Heart".

During these two days, several scientific and medico-social activities are planned:

- **Continuing education for doctors and nurses** in Kenitra and its region on Diabetes, its complications and its treatment.
- **Medico-social program for the general public** with:
 - Screening campaign for Diabetes, high blood pressure, obesity and cholesterol.
 - Immunization campaign against the flu.

- Education and awareness sessions on Diabetes and healthy living, with lectures and meetings with experts.
- Sociocultural activities: projection of short films for awareness on Diabetes, animations and artistic presentations on Diabetes and sports activity ...

Let's be there to make this celebration a highlight in the ongoing fight against the scourge of diabetes in our country ...
