Message of the President

Prof. Jamal BELKHADIR

President of the Moroccan League for the Fight against Diabetes
Former President of the International Diabetes Federation
Diabetes MENA Region

Object : Diabetes Prevention, Virtual Session on September 20, 2023. **Thanks letter.**

Dear Friends,

We have lived many informative and warm moments during the Virtual Session on **Diabetes Prevention**, organized by **the Moroccan League for the Fight against Diabetes** and its partners on September 20, 2023.

This activity is part of the preparation for World Diabetes Day which will be celebrated next November around the world under the theme chosen by the **International Diabetes in collaboration with the WHO: “Education to protect tomorrow”** and having started on August of this year.

We are very honored by the presence of eminent national and international personalities, notably Prof. Peter SCHWARZ, President Elect of the IDF and Prof. Claude JAFFIOL, Honorary President of the National Academy of Medicine in France.

On behalf of the Scientific and Organizing Committee, we would like to express our sincere thanks to the speakers, moderators and panelists for their valuable contribution.

A big thank you also to all the participants from the different regions of Morocco as well as those who followed us outside Morocco.

Dear friends,

“The Fight against Diabetes is Everyone’s Problem.” It is long and difficult, but perseverance with the multi-partner approach always pays off.
